ADIRONDACK PORTION OF THE NEW YORK STATE WILD, SCENIC AND RECREATIONAL RIVERS SYSTEM

● ● ● ● ● Wild
● ● ● ● ● Scenic
△ △ △ △ △ Recreational
○ ○ ○ ○ ○ Study

Environmental Conservation Law, Article 15, Title 27 - Wild, Scenic and Recreational Rivers System
Agency regulations concerning private lands along Wild, Scenic and Recreational Rivers are found in 9 NYCRR Part 57.
Agency jurisdiction over "Study Rivers" is set forth in Section 810 of the Adirondack Park Agency Act.
This is a reduced scale version of the Official Adirondack Park Land Use and Development Plan Map and State Land Map on file at the Adirondack Park Agency Headquarters in Ray Brook, New York. Private lands less than 10 acres may not appear on this map. These lands are in the Resource Management Classification.
* State Land Pending Classification that is not on the map is under the jurisdiction of the Federal Government. Black River Regulating District.

Revised March 18, 2023 John W. Barge & Molly Jordan, Cartography & GIS © Adirondack Park Agency 2023

Commemorating the 50th Anniversary of the Adirondack Park Agency Act
Statement of legislative findings and purposes. The Adirondack park is abundant in natural resources and open space unique to New York and the eastern United States. The wild forest, water, wildlife and aesthetic resources of the park, and its open space character, provide an outdoor recreational experience of national and international significance. Growing population, advancing technology and an expanding economy are focusing ever-increasing pressures on these precious resources.

The basic purpose of this article is to insure optimum overall conservation, protection, preservation, development and use of the unique scenic, aesthetic, wildlife, recreational, open space, historic, ecological and natural resources of the Adirondack park.

A further purpose of this article is to focus the responsibility for developing long-range park policy in a forum reflecting statewide concern. This policy shall recognize the major state interest in the conservation, use and development of the park's resources and the preservation of its open space character; and at the same time, provide a continuing role for local government.

The Adirondack park land use and development plan set forth in this article recognizes the complementary needs of all the people of the state for the preservation of the park's resources and open space character and of the park's permanent, seasonal and transient populations for growth and service across employment and a strong economic base, as well, in support of the essential interdependence of these needs, the plan represents a sensibly balanced apportionment of land to each.

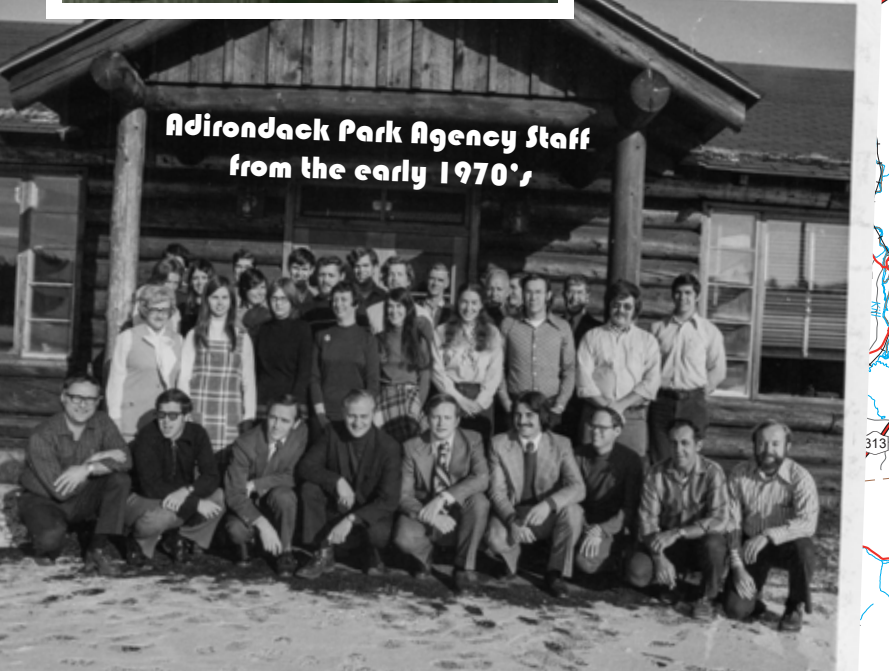

The Adirondack Park encompasses one fifth of the land area of New York State. Private land classification average includes:
Hamlet, 33,100; Moderate Intensity, 99,300; Low Intensity, 264,200; Rural Use, 180,900; Resource Management, 1,431,700; and Industrial Use, 11,800 acres.

State land classification average includes:
Wilderness, 1,186,400; Canoe Area, 17,200; Primitive, 38,200; Wild Forest, 1,324,000; Intensive Use, 22,600; Historic, 300; State Administrative, 2,000; and Pending Classification, 4,200 acres.

350,000 acres of the park is covered by water.

Total acreage within the Adirondack Park "Boundary" is 5,820,300 acres.

All area statistics rounded to the nearest 100 acres were calculated by the Adirondack Park Agency GIS in March 2021.
