SUMMARY AND AUTHORIZATION

This permit authorizes a municipal sand and salt storage structure in an area classified Moderate Intensity Use on the Adirondack Park Land Use and Development Plan Map in the Town of Santa Clara, Franklin County.

This authorization shall expire unless recorded in the Franklin County Clerk's Office within 60 days of issuance of a signed and notarized permit. The signed and notarized permit shall be recorded in the names of all persons listed above and in the names of all owners of record of any portion of the project site on the recordation date.

The project shall not be undertaken or continued unless the project authorized herein is in existence within five years of the date the permit is recorded in the Franklin County Clerk's Office. The Agency will consider the project in existence when the authorized structure is constructed.

The project shall be undertaken in compliance with all conditions stated herein. Failure to comply with this permit is a violation and may subject the permittee, successors, and assigns to civil penalties and other legal proceedings.

This permit does not convey any right to trespass upon the lands or interfere with the riparian rights of others in order to undertake the authorized project, nor does it authorize the impairment of any easement, right, title or interest in real or personal property.

Nothing contained in this permit shall be construed to satisfy any legal obligations of the permittee to comply with all applicable laws and regulations or to obtain any governmental approval or permit from any entity other than the Agency, whether federal, State, regional, or local.

PROJECT SITE

The project site is an 8.5-acre parcel of land located on NYS Route 30 in the Town of Santa Clara, Franklin County, in an area classified Moderate Intensity Use on the Adirondack Park Land Use and Development Plan Map. The site is identified as Tax Map Section 431, Block 1, Parcel 5, and is described in a deed from Charles Vosburgh to Town of Santa Clara, dated July 28, 1965, and recorded September 21, 1965, in the Franklin County Clerk's Office at Book 429, Page 381.

The project site is improved by the Town of Santa Clara Highway Department office, storage garages and the Town of Santa Clara offices and community center.

PROJECT DESCRIPTION

The project as conditionally approved herein involves the construction of a sand and salt storage structure that is 72 feet wide, 112 feet long and 40 feet high located at the existing highway department facility. The project will utilize the existing access from NYS Route 30.

The project is shown on the following maps and plans:

- "Town of Santa Clara Salt/Sand Storage Building" prepared by Barton & Loguidice and dated March 2025 (Project Plans).

A reduced-scale copy of the Site Plan for the project, shown on Sheet S100 of the Project Plans, is attached as a part of this permit for reference.

CONDITIONS

THE PROJECT IS APPROVED SUBJECT TO THE FOLLOWING CONDITIONS:

1. The project shall not be undertaken until this permit has been recorded in the Franklin County Clerk's Office.
2. This permit is binding on the permittee, all present and future owners or lessees of the project site, and all persons undertaking all or a portion of the project, for as long as the authorized structure remains on the site. Copies of this permit and Project Plans shall be furnished by the permittee to all subsequent owners or lessees of the project site prior to sale or lease, and by the permittee and/or any subsequent owner or lessee to all persons undertaking any development activities authorized herein.

5. This permit authorizes the construction of a sand and salt storage structure in the location shown and as depicted on the Project Plans. Any change to the location, dimensions, or other aspect of the authorized structure shall require prior written Agency authorization.
6. The project shall be undertaken in compliance with the stormwater management and erosion and sediment control measures shown on the Project Plans.
7. When brought from off-site, all equipment, including but not limited to trucks, excavators, tractors, etc., and hand excavation tools such as shovels, rakes, and picks, to be used on the project site shall be clean and free of soil, mud, or other similar material.
