ADIRONDACK PARK AGENCY

JURISDICTIONAL INQUIRY FORM

MAR 1 0 2003

A. INSTRUCTIONS:

This form is used to obtain a written determination as to whether an Adirondack Park Agency permit is needed for a proposed project. Only a person having a legal interest in the property (i.e., landowner or contract vendee) may obtain a formal jurisdictional determination. The landowner or contract vendee must sign this form. If the contract vendee signs, then a copy of the contract must be provided (the sales price may be blacked-out). However, any person may obtain general information about the Adirondack Park Agency Act and Agency regulations, land use areas and critical environmental areas; please feel free to contact the Agency for such information.

The legal issues involved in determining jurisdiction are complicated. Thus, the information requested on this form is necessary in order for us to determine if the proposal requires an Agency permit. The County Clerk's Office, Real Property Tax Service and/or the Town Office may be able to assist you in obtaining property information (i.e., tax map number, history, copies of deed[s], etc.).

A copy of any information submitted to the Agency may be shared with other involved local, state or federal agencies in order to facilitate a coordinated review process.

PLEASE INCLUDE COPY OF CURRENT RECORDED DEED, TAX MAP NUMBER AND A DESCRIPTION OF YOUR PROJECT, INCLUDING SKETCH MAP. WE CANNOT RESPOND TO YOUR INQUIRY WITHOUT THIS INFORMATION.

E. **SKETCH MAP**:

On a separate sheet provide a scaled sketch map of the property showing acreage, boundaries, existing roads and buildings, natural features and water bodies, location of water supply, all portions of a sewage disposal system, including size, type and location, and all proposed structures, subdivision lines or other changes to the property. It should be made at a scale of 1 inch to 100 feet. If a subdivision is proposed, please indicate which (if any) lots are to be retained by current landowner. If your lot is a shoreline lot, show the lot width and indicate the setback distance from mean high-water of any structures and sewage system which you propose. Also, provide the north arrow and the name of the map maker and date prepared.
