MAPPWD permit holders are permitted uncommon access to state land. For more information, contact the New York State Department of Environmental Conservation.

Permit holders can use a permitted vehicle to travel beyond designated routes where others must hike or bike. The permit provides access for those who seek solitude, connection to nature, undisturbed wildlife habitat, and inclusion with fellow sportspeople.

MAPPWD Routes have been carefully selected to protect natural areas and recreational activities. Access is restricted to designated routes only.

This list, updated May 1, 2020, contains all currently permitted routes and supersedes all previous listings. All routes are subject to closure due to seasonal conditions or maintenance. Contact your DEC regional office (page 15) for current information on specific routes. This list is maintained pursuant to DEC Commissioner's Policy 3 (CP-3).
